Practice Questions

Extra Challenge Unit

Example

How can you find the length of the table?

Measure the length of table in pencil-lengths, hand-lengths, ruler etc.

The table is 3 pencil-lengths or 6 crayon-lengths.

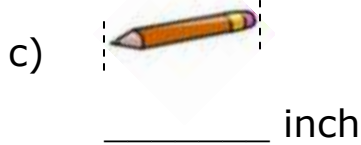

It will show about 16 inches long by using ruler.

∴ Standard unit for measuring length is an inch.

Exercise

1. Estimate the length of each object in nearest inch.

2. Find the length of above figures in paper clip-lengths. First estimate how many paper clips long?

a) Estimated ___ paper clips b) Estimated ___ paper clips
Measure ___ paper clips Measure ___ paper clips

c) Estimated ___ paper clips d) Estimated ___ paper clips
Measure ___ paper clips Measure ___ paper clips

3. Use a ruler to find the length of the given object.

_____ inch
