

Example:

437

 The number word for 437 is **four hundred thirty-seven**.

 The expanded form of $437 = 400 + 30 + 7$

 The standard form of $400 + 30 + 7 = 437$

1. Read the number word. Write the number in expanded form. Then write it in standard form.

- a. Three hundred twenty-nine

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

- b. Six hundred seventy-eight

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

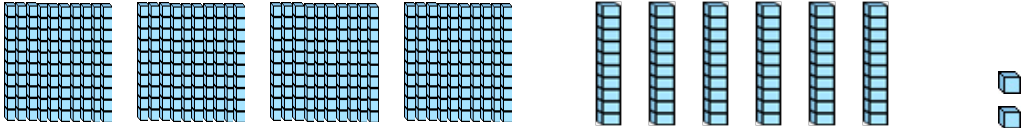

- c. Two hundred fifty-one

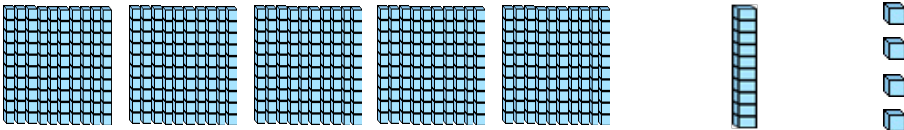

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

2. Write the number word and the standard form.

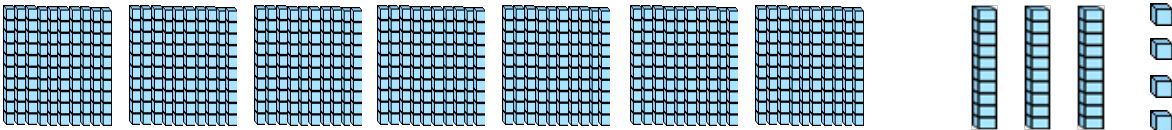

a. $400 + 60 + 2$

b. $500 + 10 + 4$

c. $700 + 30 + 5$

3. Solve the following problems.

i. Yoko has 293 dolls. Write the number of dolls in number word form and in expanded form.

_____ + _____ + _____

ii. Grade two has 124 students. Write the standard form, number word, and expanded form of the number.

_____ + _____ + _____
